The Group recorded a loss of approximately HK\$6.76 million in the first three months of the year 2022, compared with the loss of approximately HK\$4.84 million for the corresponding period in 2021, it increased by approximately HK\$1.92 million. As disclosed in the Company's announcement dated 29 April 2022, there is an increase in turnover in the segment of sales of motor vehicles for the three months ended 31 March 2022 leading to an increase in revenue which was offset by the relatively high overhead costs for the three months ended 31 March 2022 and thus the Company recorded a loss in the period ended 31 March 2022.

The PRC government requires the parallel importers of motor vehicles to obtain certification administered by the Ministry of Ecology and Environment of the PRC ("EE Certification") for China 6 Standard imported motor vehicles before offering the same for sale in the PRC (the "Certification Process"). Only a limited number of the Group's China 6 Standard imported motor vehicles have gone through the Certification Process and could be offered for sale in the PRC for the three months ended 31 March 2022 and thus causing the business under this segment was affected. Compared with the period ended 31 March 2021, as the pace of Certification Process has been improved and more Group's China 6 Standard imported motor vehicles can be offered for sale in the PRC, the revenue for the period ended 31 March 2022 has been improved. For the period ended 31 March 2022, the Group recorded the revenue of sales of motor vehicles where the Group acts as principal approximately HK\$14.97 million. Approximately HK\$0.87 million and approximately HK\$1.71 million were recorded respectively for the revenue of sales of motor vehicles where the Group acts as principal and an agency and services fees income from accessories sourcing for the period ended 31 March 2021.

For proprietary stock trading, the Group recorded no unrealised nor realised gain or loss for the period under review.

The increase in revenue was mainly due to the increase in the business of sales of motor vehicles in the PRC.

The segment of sales of motor vehicles recorded revenue of approximately HK\$14.97 million for the three months ended 31 March 2022 and it recorded approximately HK\$2.58 million of revenue for the last corresponding period. The business performance under the segment of sales of motor vehicles has been improving as the pace of Certification Process is improved and more Group's China 6 Standard imported motor vehicles can be offered for sale in the PRC.

The Group recorded an unaudited loss for the three months ended 31 March 2022 of approximately HK\$6.76 million compared with an unaudited loss of approximately HK\$4.84 million for the last corresponding period. The equity attributable to owner of the Company amounted to approximately HK\$172.61 million as at 31 March 2022, representing a decrease of approximately HK\$5.79 million, or 3.25% from that of 31 December 2021.

## Outlook

In the first quarter of year 2022, almost 99.30% revenue of the Group came from the segment of sales of motor vehicles in the PRC. Although the motor vehicles business of the Group is affected by the outbreak of COVID-19 pandemic, the uncertainty created by the ongoing Sino-US trade war and the impact of the PRC government policy, the Group will closely monitor the business environment and the change of the PRC government policy in order to make appropriate business strategies.

As disclosed in the announcement dated 7 March 2022 and 2021 annual report of the Company, due to the change of government policy in the PRC on the China 6 Standard imported motor vehicles, the PRC government requires the parallel importers of motor vehicles to obtain EE Certificate for China 6 Standard imported motor vehicles before offering the same for sale in the PRC. As at 31 March 2022, the Group obtained EE Certification for two types of China 6 Standard imported motor vehicles, and the others are still in the Certification Process. The Group has been closely monitoring the Certificate Process for their imported China 6 Standard motor vehicles. The Group expects the business performance of this segment will be improved if more Group's China 6 Standard imported motor vehicles can be offered for sale in the PRC.

After the three years' efforts since the implementation of the 13th Five-Year Plan (2016-2020), the PRC has been reforming the regulatory landscape in the pharmaceutical industry leading it has a steady growth in the past few years, especially for major new medicines development like the promotion of more lifesaving and safe medicines to be listed and included in medical insurance. Therefore, the Company decided to divert the Group's resources to invest in the new medicine development market in the PRC through its investment in a limited partnership which can attain diversification of the Group's business.

The Group is optimistic and confident in the prospects of the China and Hong Kong stock markets and will continue to develop other businesses and seek opportunities to expand its revenue sources to enhance the Group's revenue.
